

#### **4.4.2. Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms**

- The department of Education maintains its own laboratory cum classroom for the UG classes especially for 3<sup>rd</sup> and 6<sup>th</sup> semester students. Although the facilities provided needs much more equipment and instruments for better impartment of knowledge, but it caters to the needs of the students as prescribed by the syllabi.
- An Infrastructure Development Committee looks after the physical assets of the college like classroom infrastructure and campus maintenance. It also supervises the repair works carried out in the campus.
- The college has a Building Committee duly recognized by the Governing Body of the college. All the major works of construction is carried out by this committee.
- The college has maintained a small herbal garden within the college campus. It is maintained by the Eco Club and office staff of the college.
- The college has a playground adjacent to its college campus. All kinds of sports as well as competitions takes place here. There is a volleyball court within its sphere. A Gymnasium room equipped with modern facilities is available in the college.
- The library committee supervises the central library of the college. The different functionalities are governed by a set of rules set by the committee in the functioning of the library. A suggestion cum complaint box is installed in the library campus for receiving suggestion and complains. The librarian is responsible for the overall management of the library.
- Every department has its own departmental library.

- The computer lab of the college is placed under the supervision of Department of Mathematics. The HoD looks after the needs of the lab.
- The college maintains the nonstop power supply through a Generator and inverters. The cleanliness and hygiene committee supply the clean and pure drinking water.
